Career Objective

First-year Forensic Science student aiming to become a Scientific Assistant at the Central Forensic Science Laboratory (CFSL). I am building strong forensic fundamentals and plan to contribute to criminal investigations through scientific evidence collection and examination.

Education

BSc Forensic Science — 2026 to 2029
Lovely Professional University, Punjab, India — (first year, in progress)

Class XII (Higher Secondary) — **79%**

Class X (Secondary School) — **89%**

MSc Forensic Science (planned, after BSc) — Target: good percentage

Technical And Professional Skills

- Forensic fundamentals (developing)
- Advanced forensic laboratory techniques (learning goal)
- Evidence collection and documentation
- Fingerprint examination (learning goal)
- Digital forensics (learning goal)
- Crime scene investigation basics

Certifications And Training Planned

- Crime Scene Investigation (CSI) training
- Fingerprint examination course
- Digital forensics course

Internship And Practical Experience Plan

- Forensic laboratory internships
- Crime scene internships

Career Plan

Target position: Scientific Assistant, CFSL | **Required qualification:** MSc Forensic Science

Target organizations: CFSL, SFSL, State Forensic Police Units

Short-term goal (1 year): Build strong forensic fundamentals.

Long-term goal (5 years): Join CFSL or SFSL as a forensic professional.

Strategy: Complete BSc with a good CGPA and internships, pursue an MSc in Forensic Science, and prepare for government examinations.

Timeline: 2026 to 2029 Bachelor's degree | MSc with good percentage | Recruitment preparation | 2031 onwards professional career
